- Snap&Read Universal is the Next-Generation reading tool for Google Chrome, iPad and more, that can cover the most diverse reading needs. It reads both accessible and inaccessible text aloud, it levels vocabulary, and it translates, delivering usage data to teachers who then can more easily assess students' reading needs individually.
- Co:Writer Universal (for Google Chrome and iOS) uses grammar- and vocabulary-smart word prediction, translation support, and speech recognition to help unstuck ideas and get them to flow in writing.
